In no event will our liability for any claim, whether in contract, or any other theory of liability, exceed the license fee paid by you.

2. Introduction

DCP is a **complete replacement** of **EPOC SHELL Desktop**. DCP offers a **multi-desktop** feature that allows users to manage shortcuts to file in different environment.

DCP is very easy to use, it allows a complete integration of Agenda entries, Contact database and Projects. For ER5 devices, DCP is Client/Server designed for access Contact and Agenda databases. Every changes made by other applications will be automatically take in account in DCP. DCP can't duplicate Agenda and Contact entries, DCP manages only shortcuts to each kind of entry.

Users may now **associate Projects and Contacts to an agenda entry** (appointments or todos). DCP allows **attached notes** to each kind of entries. These notes may be shared and accessible from other Corisoft Softwares like **Business Warrior or QuickP**.

DCP manages your preferred files through shortcuts that users may place every where in the screen.

When launching the software, you will ever return to DCP after ending an application. DCP becomes the default shell.

DCP manages also **Batteries Levels**, it allows **Link management** with one click. DCP controls the **Backlight behaviour**.

DCP offers a **Reminder Manager**. DCP lets the user enter alarm entries independently from the Time application. DCP wakes up your EPOC device at the alarm date and time.

DCP owns its proper **File Manager**. This file manager is very fast and allows user to manage a **bookmark**.

Users can create **Sticks and Notes**. Sticks are displayed in the screen and are designed for a visual use. Notes offer approximatively the same layer as word built-in application, with fonts and styles selection, import, export, print and object insertion.

Users can use the pointer like a pen to **write directly on the screen**.

DCP offers also a wallpaper management.

DCP offers a built-in Calculate that allows users to manager currency conversions.

A complete Today View is available into DCP. This feature lets the user have a look for all appointments and todos of the day. Users can edit or add new entries with

Contacts and Projects associations. Users can also attach a note to every kind of entry directly from this view.

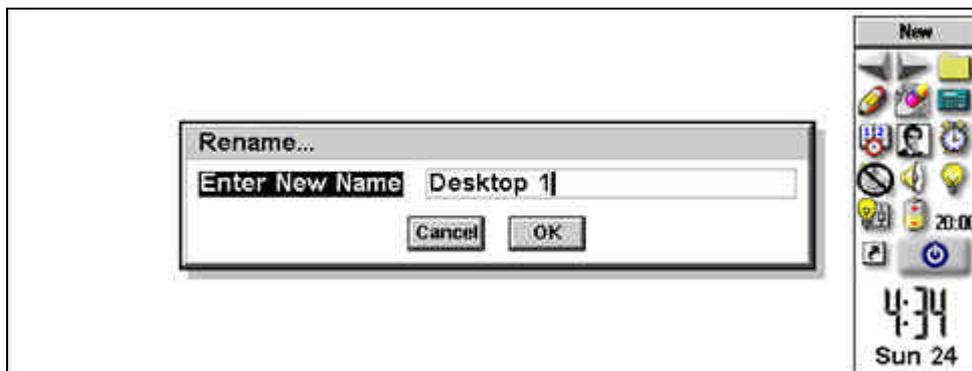

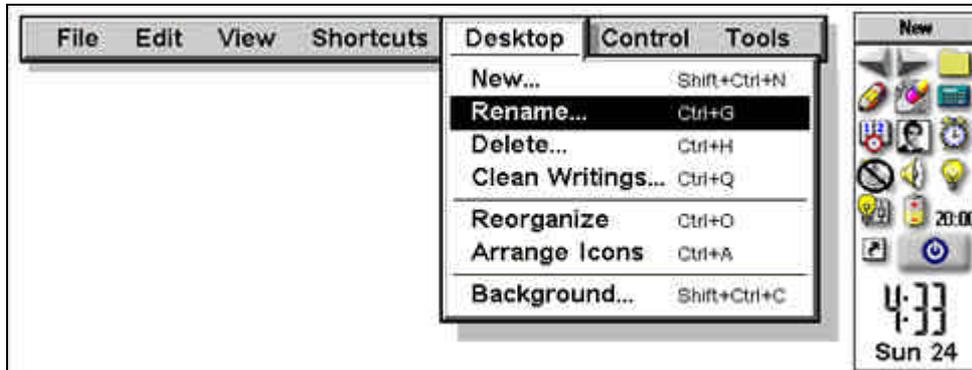

DCP is very fast, entirely written in C++ !

3. Manage Desktops with DCP

DCP is cut in two parts : the desktop view and the toolbar view.

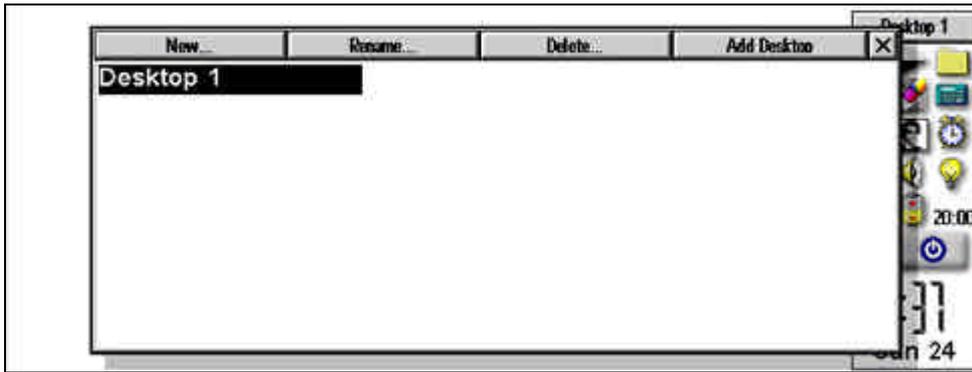

The first desktop is called “New”. Users can change it from the main menu.

The Desktop selector title has now changed to “**Desktop 1**”

You can select move through the desktop in clicking on the “**LEFT**” and “**RIGHT**” arrow icons in the screen, you can also move with the keyboard hotkeys : “**CTRL+LEFT**” and “**CTRL+RIGHT**”.

DCP offers a Desktop manager if you click on the Desktop Selector button.

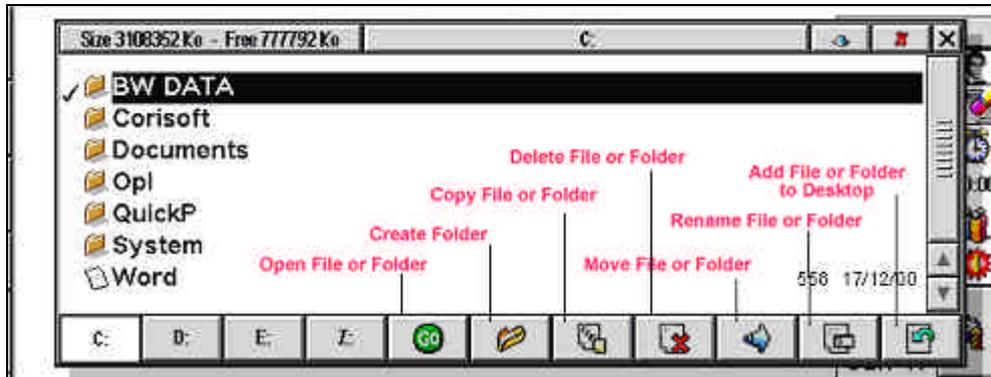

You can also open this window with “**TAB**” key.

In the desktop manager, we have 4 buttons :

- New:** Create a new Desktop
- Rename:** Rename the current Desktop
- Delete :** Delete the current Desktop
- Add Desktop :** Add a shortcut to the selected desktop in the current desktop.

4. DCP Filemanager

The DCP Filemanager may be opened in clicking on the “**Folder Icon**” in the toolbar.

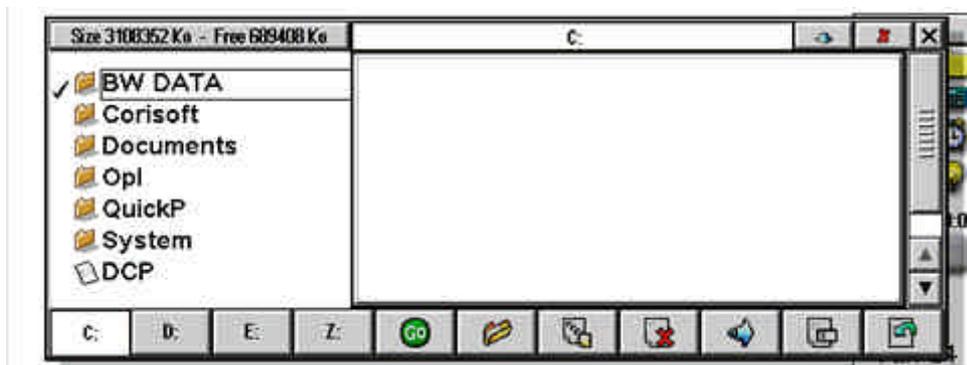

The first buttons lets the user change the current Drive.

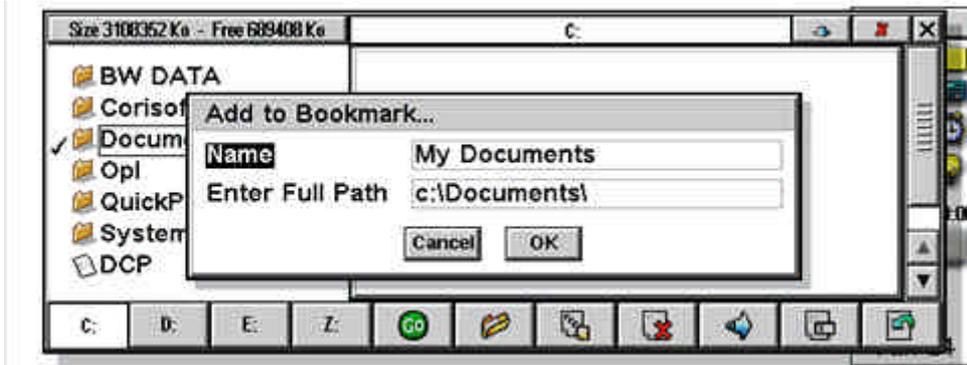

The “**Add Desktop**” button is used to add a shortcut to a file in the current Desktop. It’s the only way to add a shortcut to a file in a DCP desktop.

How to use the Bookmark ?

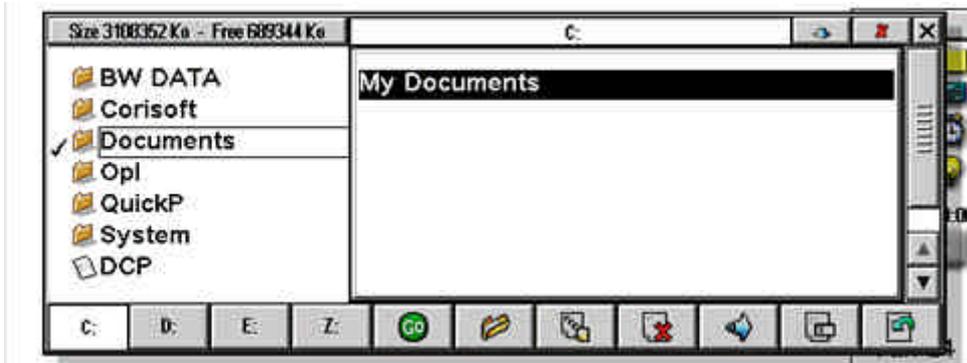

Users must click on the “Current Path Labelled Button” to open the bookmark list.

If you want to add a folder in your bookmark, select a folder and click on the “**DOWN ARROW**” icon.

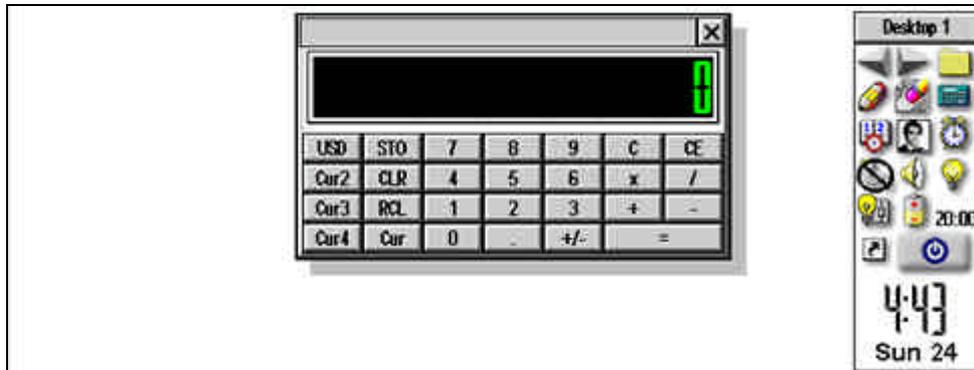

Click on my documents in the list open the filemanager to this folder !

5. DCP Built-In Calc

The DCP Calc may be opened in clicking on the “**Calc Icon**” in the toolbar.

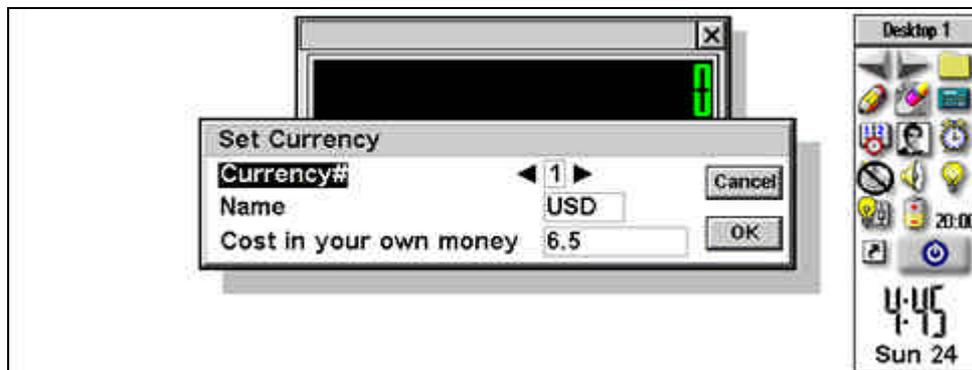

This calc allows users to manage 10 memories. Memories are easy to use.

STO <number> store the current displayed value in memory <number>.

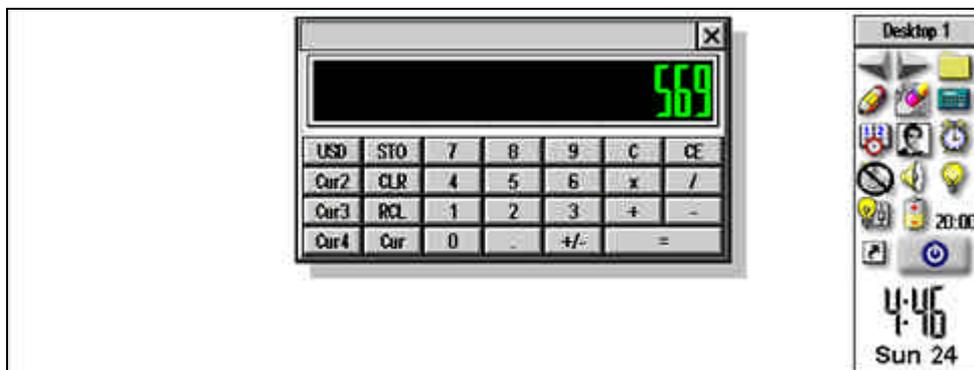

CLR <number> clear the memory <number>

RCL <number> recall the memory <number> and display it on the screen.

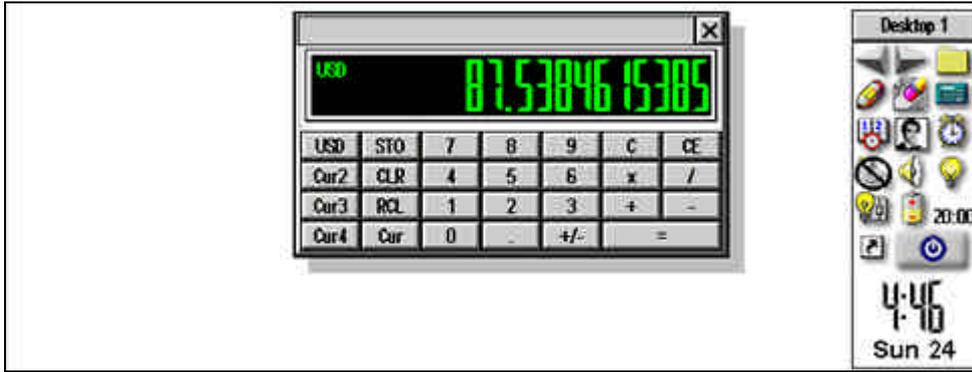

Click on “**Cur**” Button to define your own currencies.

Now you can convert an amount in your own money.

Click on USD to display the current amount in USD.

6. Write directly on the screen with DCP

To write directly on the screen with the pointer, users must click on the **“Pen Icon”** in the toolbar.

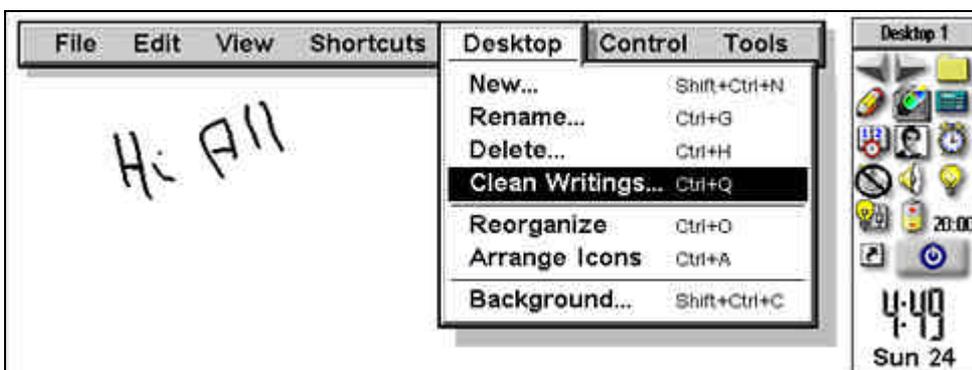

To clear a part of the screen, click on the rubber !

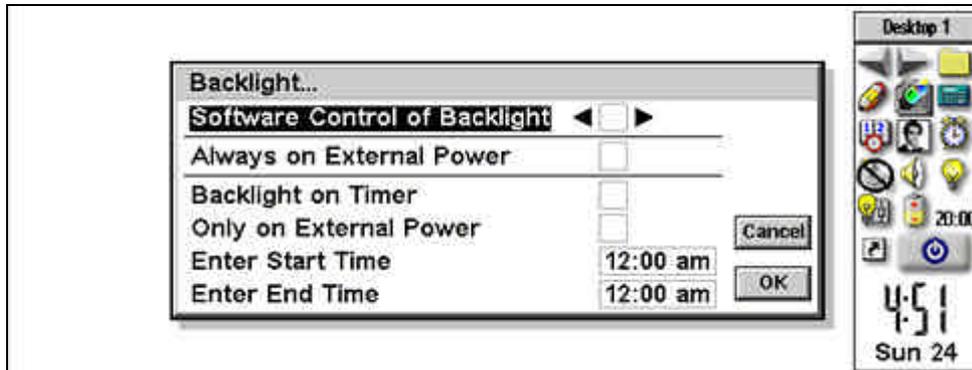

To return in normal mode, click on the selected icon (Pen or Rubber).

You can also completely clean the screen with the “Clean Writings” menu item .

7. Manage Backlight with DCP

To manage Backlight, users must click on the “**Light Switch Icon**” in the toolbar.

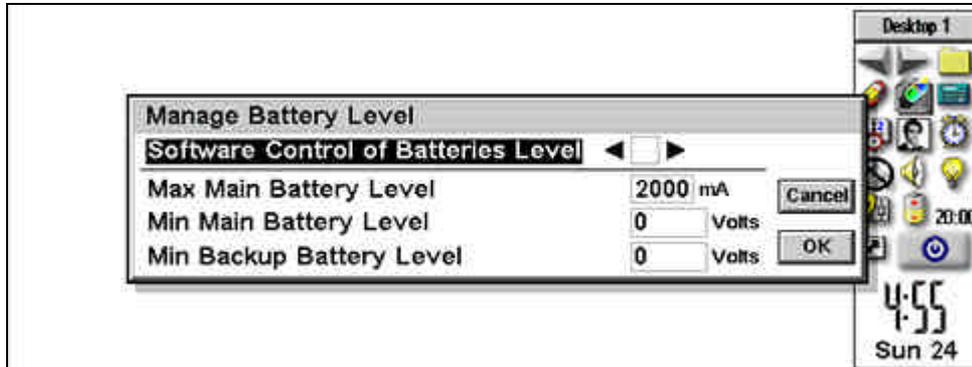

Check “**Software Control of Backlight**” to allow DCP managing the backlight. The backlight may switch on automatically when DCP detects the external power. Or users can select a range when DCP will switch on and off the backlight.

The other “**Light**” icon in the toolbar oblige DCP to maintain Backlight on even if you have entered a specific control of the backlight.

8. Manage Battery Levels with DCP

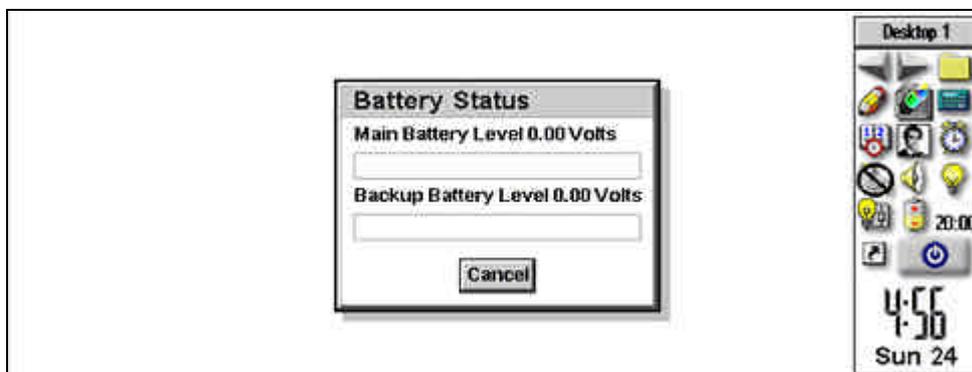

To manage Battery levels from DCP, users must click on the “**Battery Icon**” in the toolbar.

Check “Software Control of Batteries Level” to allow DCP warning users when batteries levels are to low. Users may enter the level voltage for each kind of battery.

When one of the levels is reached, DCP generate a Warning Message and a Continuous beep sound.

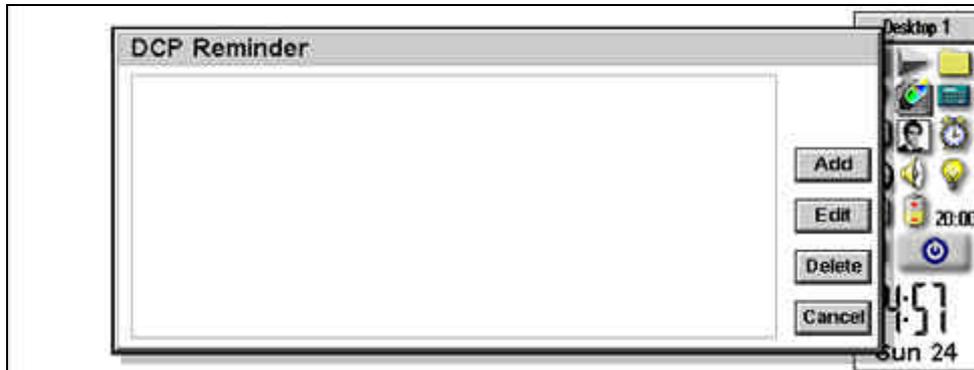

The “Max Main Battery Level” is used according to the battery type to calculate the battery life and to display the left duration.

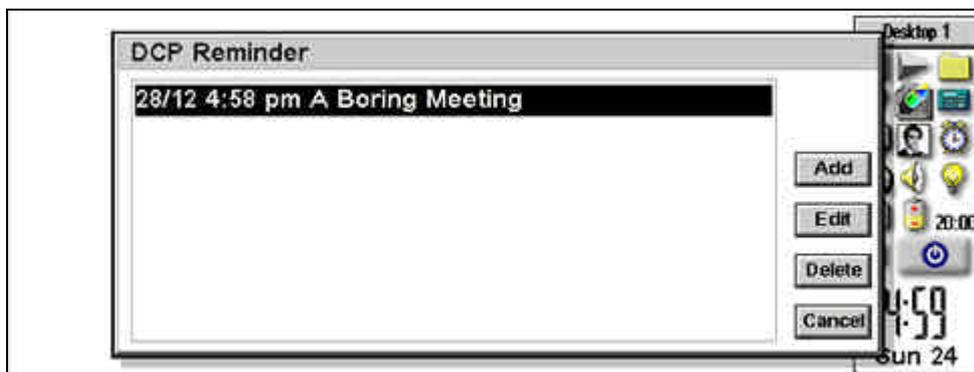

Click on the duration label to open the battery status dialog box.

9. Manage Reminders with DCP

Open the reminder dialog box in clicking on the “**Alarm**” icon in the toolbar.

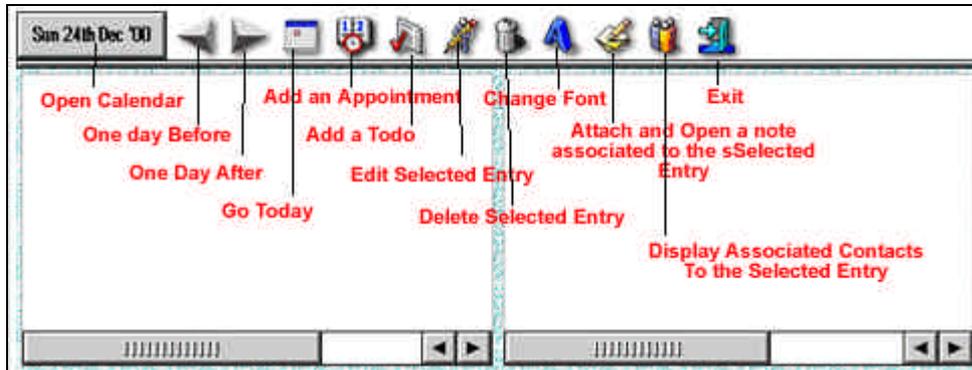

Click on “**Add**” button to add a new reminder !

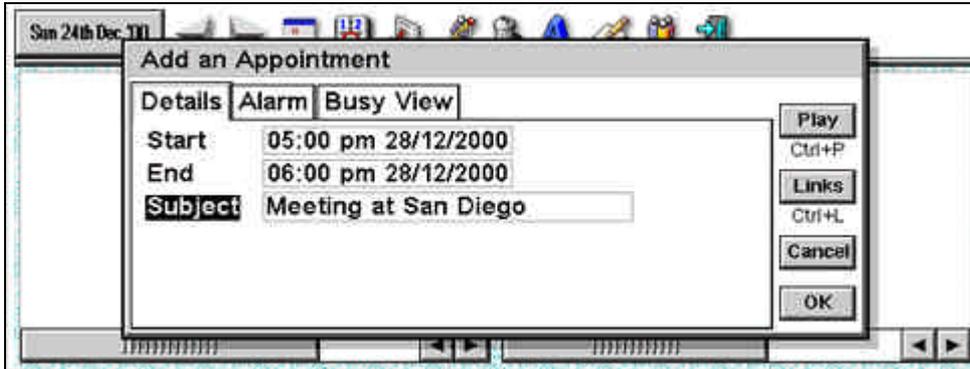

10. Today View

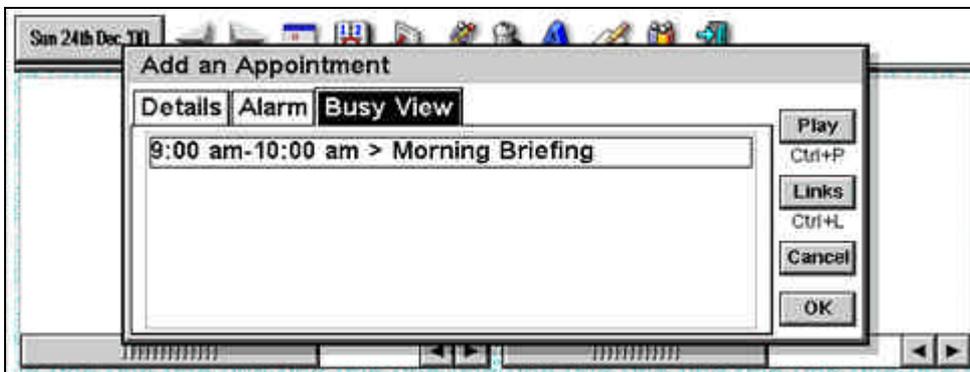

Open the Today view Window in clicking on the “**Agenda**” icon in the toolbar.

10.1. Add an appointment

Users can have a look at the busy View to define the appointment.

10.2. Manage links to Projects and Contacts

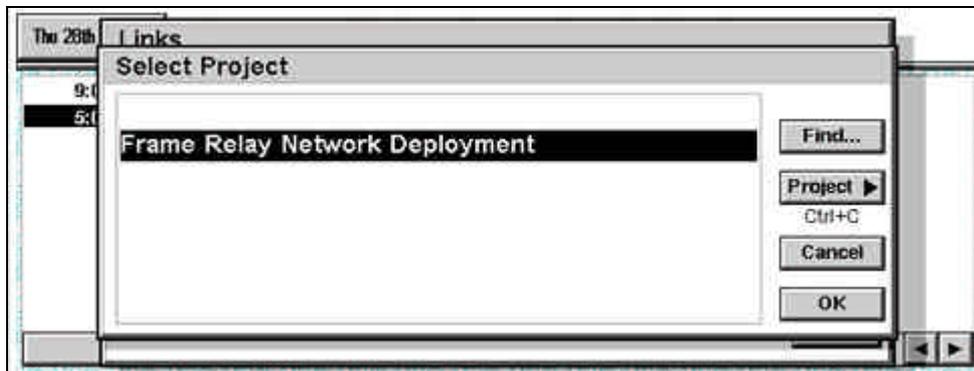

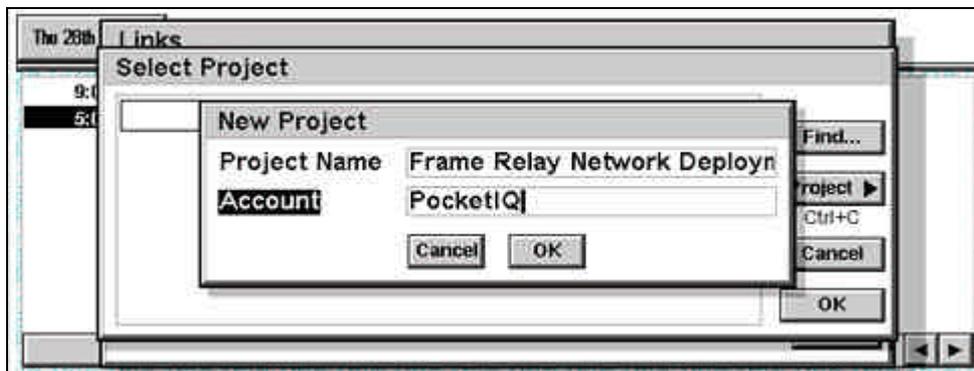

Users may add a link to a contact list or a Project. Click on "**Link**" button.

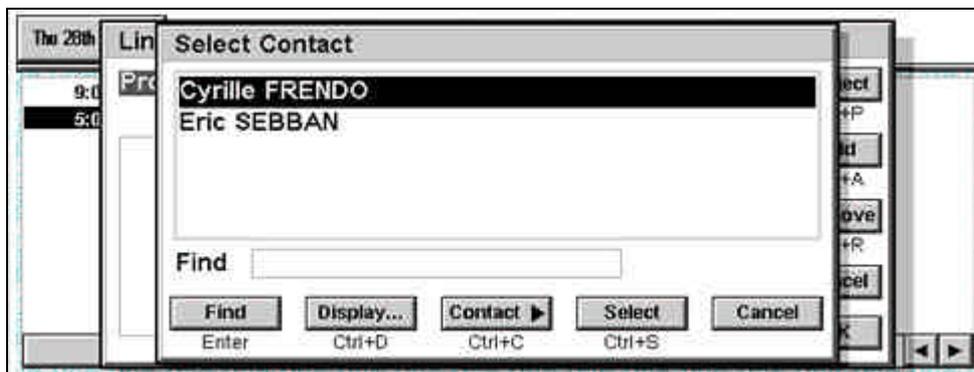

Click on "**Project**" to **Add** a new project

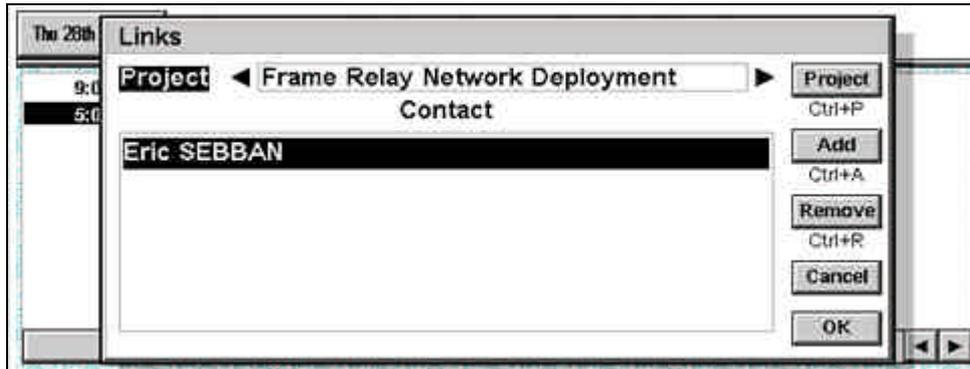

Click on “Project” button to enter a new project. This database is shared database between all other Corisoft Softwares (**Business Warrior** and **QuickP**).

Click “**OK**” to select this project

Click on **“Select”** to invite **“Eric SEBBAN”** to this meeting.

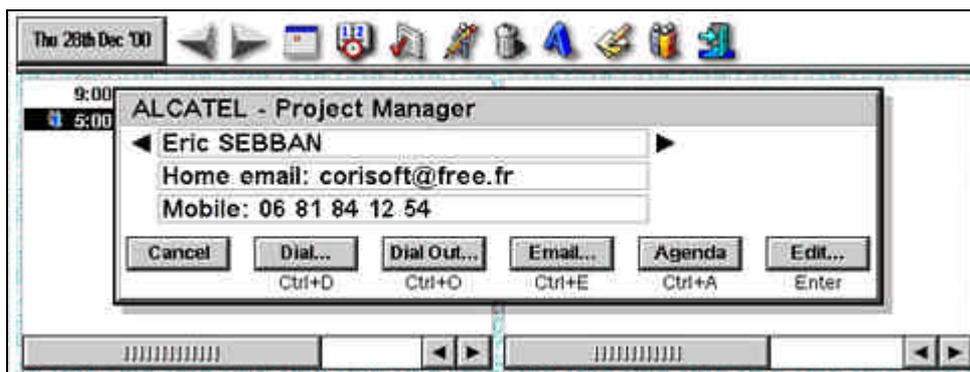

Click **“OK”** to finish link management.

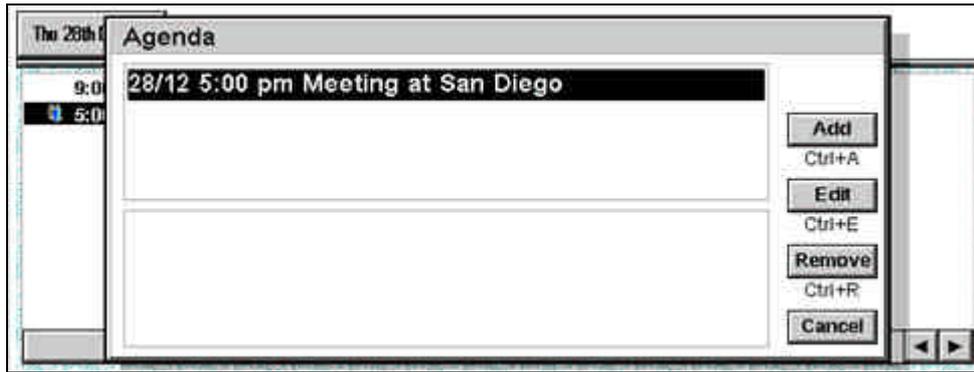

You can now display the associated contact in order to call one of them or email him directly from DCP.

Select the entry and click on the **“Contact”** icon in the toolbar.

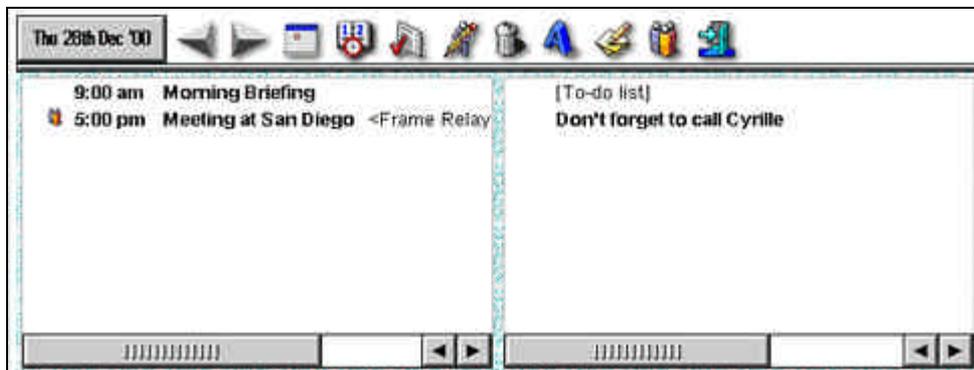

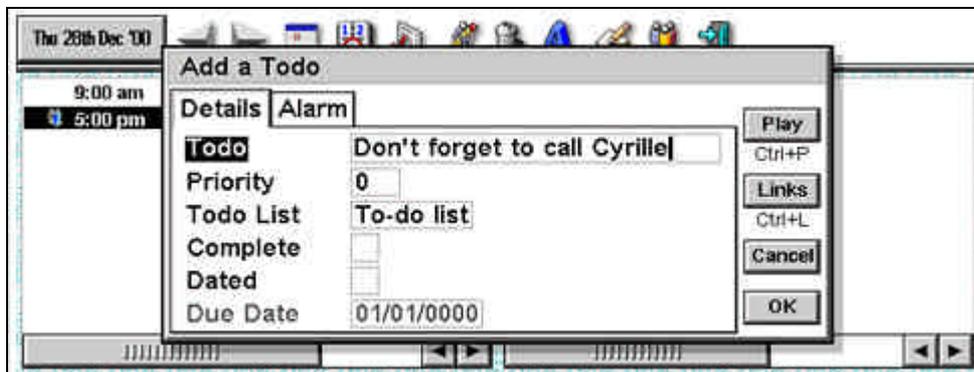

The contact view may be used to display all agenda entries associated to the contact. Click on **“Agenda”** button.

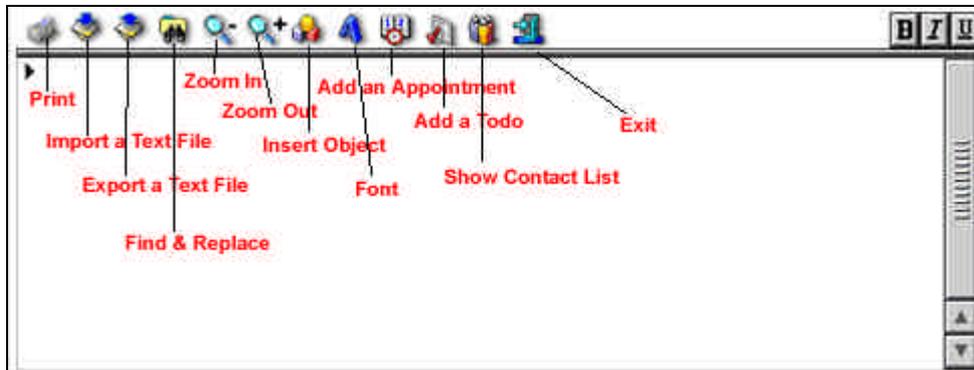

This view may be used to check all associated tasks too.

10.3. Add a Todo

10.4. Attach a note to an agenda entry

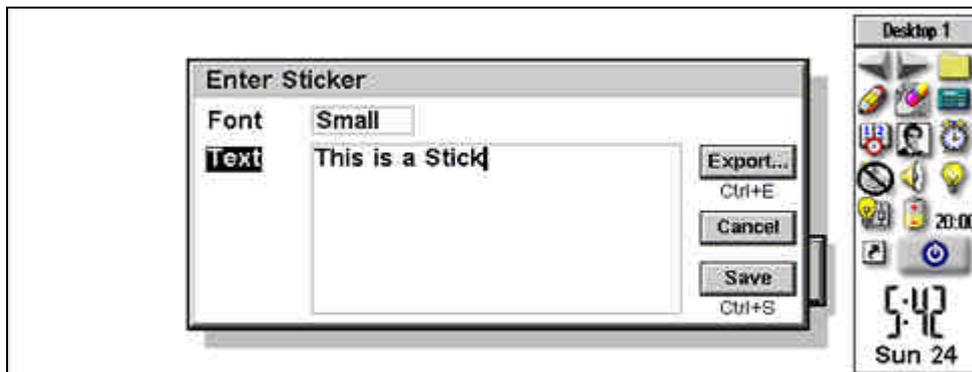

Users may attach a note to a specific entry. Select the current appointment and click on the “**Note**” button.

11. Other Shortcuts

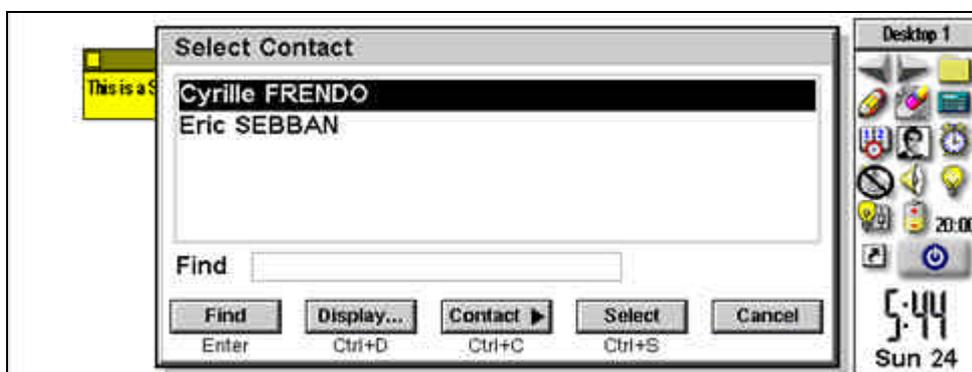

11.1. Sticks

Click on the “**Stick**” icon

11.2. Shortcut to Contacts

Click on the “**Contact**” icon

Click on “Select” To add it on the Desktop.

Attach a note to this contact, this note will be available for each other Corissoft Softwares.

Click on the “SPACE” bar to open the Note editor.

Note the Information bitmap near the contact icon. This means that a note has been attached to the current icon.

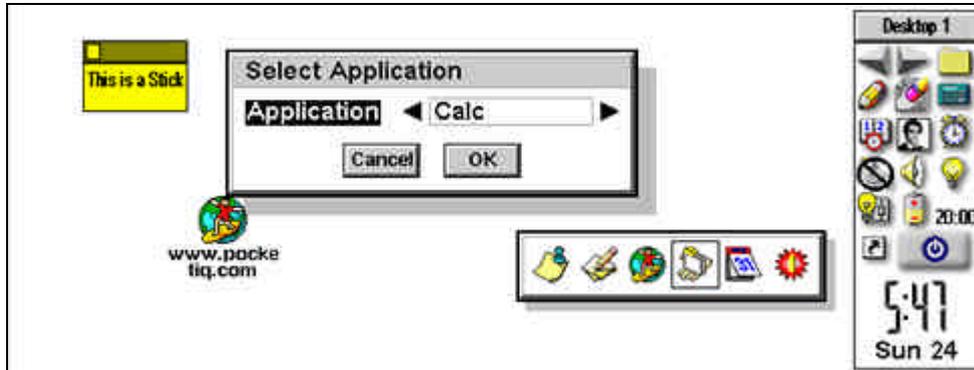

11.3. Shortcut to Url

Click on the “**Surfer**” icon

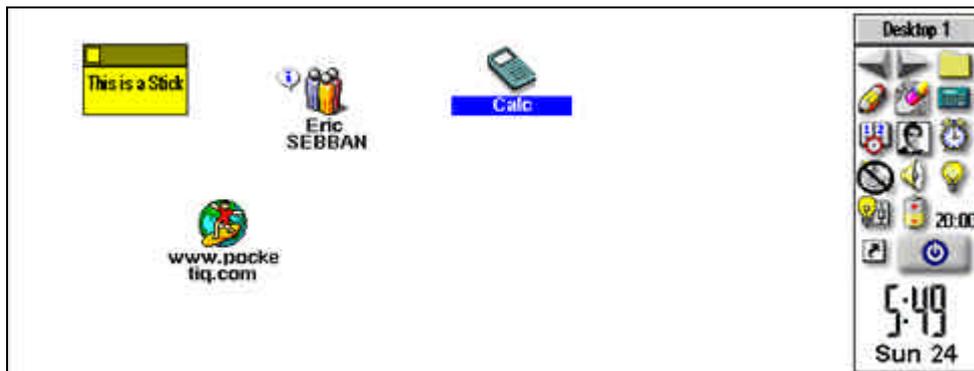

11.4. Shortcut to Applications

Click on the “**Apps**” icon

If you select the word Application, DCP will create an icon to this application. When you double click on this icon, DCP will open the application with the latest opened file.

12. Task Manager

DCP offers users an enhance task manager. Click on the task manager icon (near clock).
