

PSION LX

"The PSION LX offers mobile professionals a perfect combination of fresh design, uncomplicated software usability, personal information management and impressive performance. Working on the move has never been so simple."

Psion LX™ is an easy to carry, easy to use personal mobile computer that fuses the best qualities of laptops and PDAs in a fresh form. With a full-size colour screen and keyboard, an intuitive Psion user interface, plus a full day's battery life, Psion LX delivers unexpected ease of use in a mobile design that you'll love.

Easy to Use Applications

Psion LX comes loaded with software that just works to let you easily create, edit and manage information, whether it's writing a novel or preparing the financials for your next business venture, searching the internet for your next holiday, or for your next customer. Keep in touch via email or chat or just get to work.

Tasteful Mobile Design

Distinctively a Psion from the moment you touch the leather cover, the contoured, ultra-portable size and practical design of Psion LX sits comfortably in your hand, on your desk, on your coffee table or in your bag. Forget bulky laptops and shiny PDAs, the Psion LX fits into your life on the go, wherever you go, with robustness and ergonomics built in.

Versatile Wired & Wireless Connectivity

802.11, Bluetooth, GPRS—Psion LX supports whatever flavour of wireless technology you need through a number of card slots. A wide range of connection options means you can access wired or wireless information and add hardware accessories to match your way of working.

Uncomplicated Use

Psion LX is instant on, simply open the cover and your software is ready to use. Applications and tasks are easy to find, and are designed to be familiar for regular computer users and obvious for those that are not. Psion LX is based on the Linux operating system, relied on by everything from mobile phones to household appliances to mainframes.

It's a Psion

Most of all it's a Psion—it's designed to be fun, surprising and engaging to use. It feels good to carry and the software does what you expect. From the fresh design and robust materials to the user interface, it presses all the right buttons.

The Psion LX—it's a Psion.
