FEATURES

- Use the Charging Station to desktop mount the Workabout
- Use the Charger to enable the Workabout as a stand-alone unit
- Power Workabout and charge batteries simultaneously
- Fast charge and trickle charge provide continuous operation
- LED indicators conveniently display battery charging status

Convenient charging and powering

PERFORM BOTH FUNCTIONS SIMULTANEOUSLY

The Workabout Charging Station and Workabout Charger offer a convenient way to power the Workabout, and – with the addition of a rechargeable pack – charge Workabout batteries. Physically identical to the Workabout Docking Station, the Charging Station allows desktop mounting of your Workabout while it is charging and powering. The Workabout Charger can be connected directly to the Workabout, allowing it to be used as a stand-alone unit for charging and powering. Intelligent battery management features include fast charge combined with trickle charge to ensure batteries remain fully charged and hand helds remain ready to perform.
